

Researching University Programs in Ontario

1. Go to www.ouac.on.ca
2. Go to (OUAC 101) Current Ontario Secondary Students
3. Select **eINFO**

There is a wealth of information about Ontario universities on this site. Here are some of the links that students will find most helpful.

1. Program Wizard

- good place to start if you know what program(s) and /or school(s) you are interested in
- provides quick results

1. Go to the Area of Study Chart

- good place to start if you want to browse all the programs available to you in university
- allows you to compare programs at a glance

3. Important Information

- go to Important Information to learn more about Professional programs, i.e. Law School, Medical School, Dentistry.....
- there is also information on financial support and scholarships

What Should I Be Looking For?

- program pre-requisite/ grade requirements/details about Admission offers/ residence information/scholarships
- use the **Program Details Form** to keep track of all this information

Learning About a Program

- it is important to learn about the courses that will comprise the program you will be enrolled in at university
- link into the universities from the OUAC site and visit the school's website for details
- find **Prospective Students or Programs of Study** and become familiar with the programs of study
